MOBILITY FOR A MILLION
Swaziland, Africa & Worldwide

Like Apple computers, Disney Studios and Nirvana, some amazing starts have taken place in garages. Such was the case with Don and Laurie Schoendorfer, who in 1999, responding to scenes they had seen while on vacation in Morocco decades earlier, hand-built 100 wheelchairs from lawn chairs and mountain bike tires – all in their garage. They distributed the first four in Chennai, India in 2001. Today, Free Wheelchair Mission (FWM) has placed over one million wheelchairs with people with disabilities in developing countries, the millionth chair being placed earlier this year. These wheelchairs represent a new hope and a new life to those who receive them, transforming lives one chair and one person at a time.

Globus Relief has enjoyed a long partnership with FWM, continuing through the present day. In mid-June, our latest shipment through FWM arrived in a warehouse in Swaziland (photos at right) and is currently being prepared for use in the local community. Globus Relief is proud to partner with FWM in this endeavor and looks forward to helping FWM give mobility to its next million.

GLOBUS SERVES ITS 142ND COUNTRY
Democratic Republic of the Congo

In May, Globus Relief added yet another country to its long list of countries served. The Democratic Republic of the Congo, located in central Africa, received medical supplies from Globus Relief via a service missionary for the Church of Jesus Christ of Latter-Day Saints. DR Congo is the 142nd country Globus Relief has served in its 20 year history and brings the percentage of the world’s population represented by the countries Globus has served to over 90%.

COUNTRIES SERVED

- Chad
- DR Congo
- Ecuador
- Ghana
- Guatemala
- Iraq
- Kenya
- Kosovo
- Peru
- Philippines
- Somalia
- Tonga
- Turkey
- United States
